# Table

## It' time to let lawyers be lawyers.

Etain Table is one of our essential tools for efficiency and a value-added user experience in Thomson Reuters HighQ. This user-friendly add on simplifies data management and visualization, enabling you to organize and present information in a structured and intuitive manner, gain valuable insights and make informed decisions with ease.

Etain add-on's unlock the true potential of Thomson Reuters HighQ. By combining our add on's, such as Etain Table and Etain Timeline or PowerBI integration, you will get powerful solutions and tools to handle complex processes. When needed, Etain can customize any tool, or combination of tools, to specific use cases.

Take table creation in HighQ Collaborate to the next level by empowering non-programmers to effortlessly design a variety of visually captivating and interactive tables. Site admins can seamlessly integrate feature-rich and visually appealing tables into HighQ Collaborate dashboards, enhancing key data accessibility and user experience.

## About

All Etain HighQ Add-Ons are developed by legal process experts in collaboration with leading law firms and their clients, capturing the "best of breed" from multiple disciplines in multiple jurisdictions. Etain Add-Ons to HighQ are compatible with HighQ Collaborate, and some may also be made available for HighQ Publisher upon request. The Add-Ons are embedded in Etain's HighQ Solutions for Legal (HighQ Collaborate Templates) but are also available on a stand-alone basis. Customer-specific adjustments to all Add-Ons are available on request.

Etain has years of experience with enabling HighQ customers to make the most out of their investment in HighQ. Our expertise ranges from deep knowledge about the HighQ API, to building both simple and sophisticated solutions for specific purposes based on HighQ.
